NOTE

If you wish to download a compressed version of this index, please [click here](#).

About the Index

This file is the index for Monumenta Nipponica, volumes 1-55:2. As there are nearly 1000 entries, the file is quite large. We hope that you will consult the index by downloading it and using it as a "local copy."

How to download the index

After the entire file has loaded into your Web browser, please use Save As... to save the file to your disk. Save under the format "Source" so that you can view the index as a local copy on your own computer.

How to view a local copy

Once you have the source file on disk, you can view the contents by opening the file on your Web browser. One way to do so is to open your browser and choose File:Open and navigate to the file location.

How to search the index

The entries are arranged by topic. If you wish to search by author, title, or by a keyword that appears in the article title, please use your browser's Find function.

Note that macrons and other diacritical marks have been omitted.

To search using the Find function, users of Netscape Navigator may press Command - F / Control - F to bring up the Find on Page dialog box. Using that dialog box will locate the first instance of the keyword if it appears in the index. Then press Command - G / Control - G to find the next instance; repeat the process to find each further occurrence.

This index will be updated with each issue as it is published.
